

# Amsterdam 300

## Real Dutch courage!

**4 countries. 300 miles.  
2 days. 1 ride.**

Your challenge begins as Big Ben strikes midnight and you ride out through deserted London streets in a bid to cross four countries and reach Amsterdam in less than 48 hours.

You will need endurance and determination to cycle through the night, and onto the daylight dash across France and Belgium, where a pit stop awaits. We leave camp at dawn for the final push into Holland to reach the Dutch capital and toast our epic ride! September 2011.
