

# FREE METRO SCOTLAND

Launched in 1999, Metro was designed to brighten up the morning commute for an urbanite audience and get them up to speed quickly with what they need and want to know. Today it does so in over 52 cities across the UK. Metro's content is concise, relevant and engaging, presented in a visually appealing, well designed fashion. It remains a sought-out product for the latest news, sport, entertainment and daily features which focus on food, travel, fashion, technology and games, film, music and so much more.

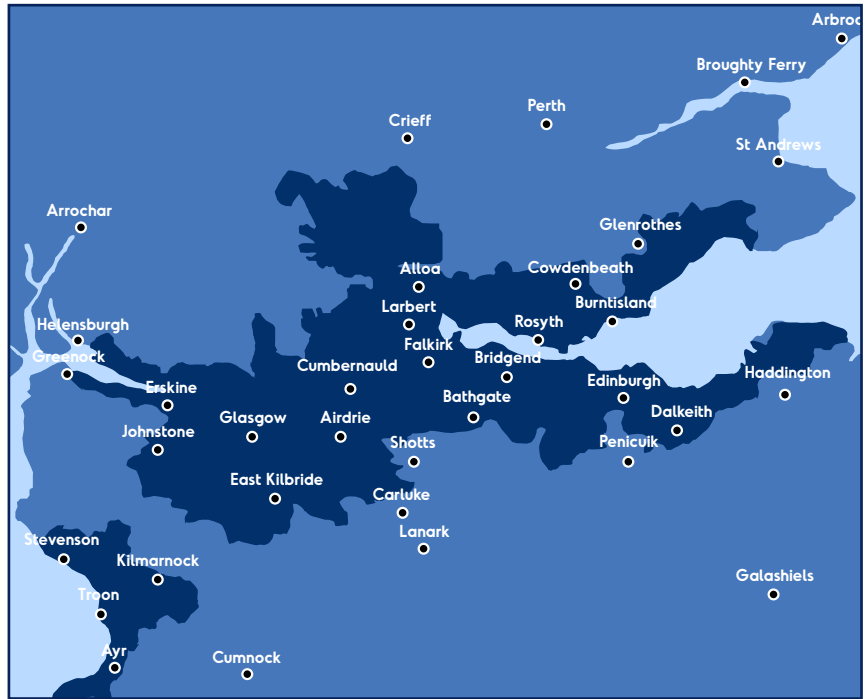

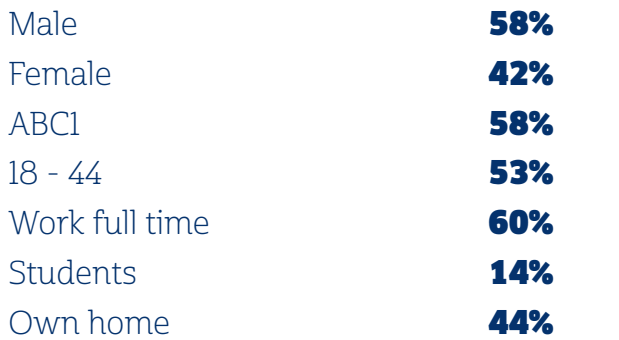

Metro is read by over 2.3 million adults across the country and is the UK's largest weekday national newspaper. Metro's success is based upon the newspaper's ability to deliver the right product, in the right place, at the right time to the right people. It gives advertisers a valuable opportunity to reach a young, affluent and responsive urban audience.
